

smartpdf test sheet - page 1 of 2

Click a blue boxed label; the Find box should fill with the net name and jump to a highlighted match. F3 / Shift+F3 = next / prev.

1. CLK -> finds CLK here and on page 2; NEVER lands on CLK_EN, CLK_OUT, CLKX or lowercase clk
2. RESET -> jumps to RESET on page 2 AND zooms to 300%
3. DATA0 -> link is %-encoded; must still find DATA0
4. MISSING_NET-> shows the normal 'not found' message, no crash
5. https link -> still opens the browser (stock behavior)
6. GRM155R71C104KA88D -> opens browser: Google datasheet search
7. 214-0034 -> opens File Explorer at C:\Windows (stand-in for the company parts folder)

CLK

CLK_EN

CLK_OUT

RESET

DATA0

MISSING_NET

<https://www.sumatrapdfreader.org>

wire list: CLK_EN CLKX clk CLK_OUT DATA0 DATA01
second CLK occurrence on this page: CLK

smartpdf test sheet - page 2 of 2

CLK appears here too (F3 from page 1 lands here): CLK

RESET target line: RESET

more decoys: CLK_EN CLKX clk RESETX reset DATA0
